Migrating to the cloud

"Migrating our WordPress business from self owned hardware to the Cloud"

with Leo Mindel @WFCKeego

We planned a 18 month migration from our own data centre to AWS in 2015 but life is not that simple. Four years later Sotic are now 100% cloud based, running some of the fastest award winning WordPress sites out there with a huge improvement in employee well being and work / social balance.

The presentation will cover:

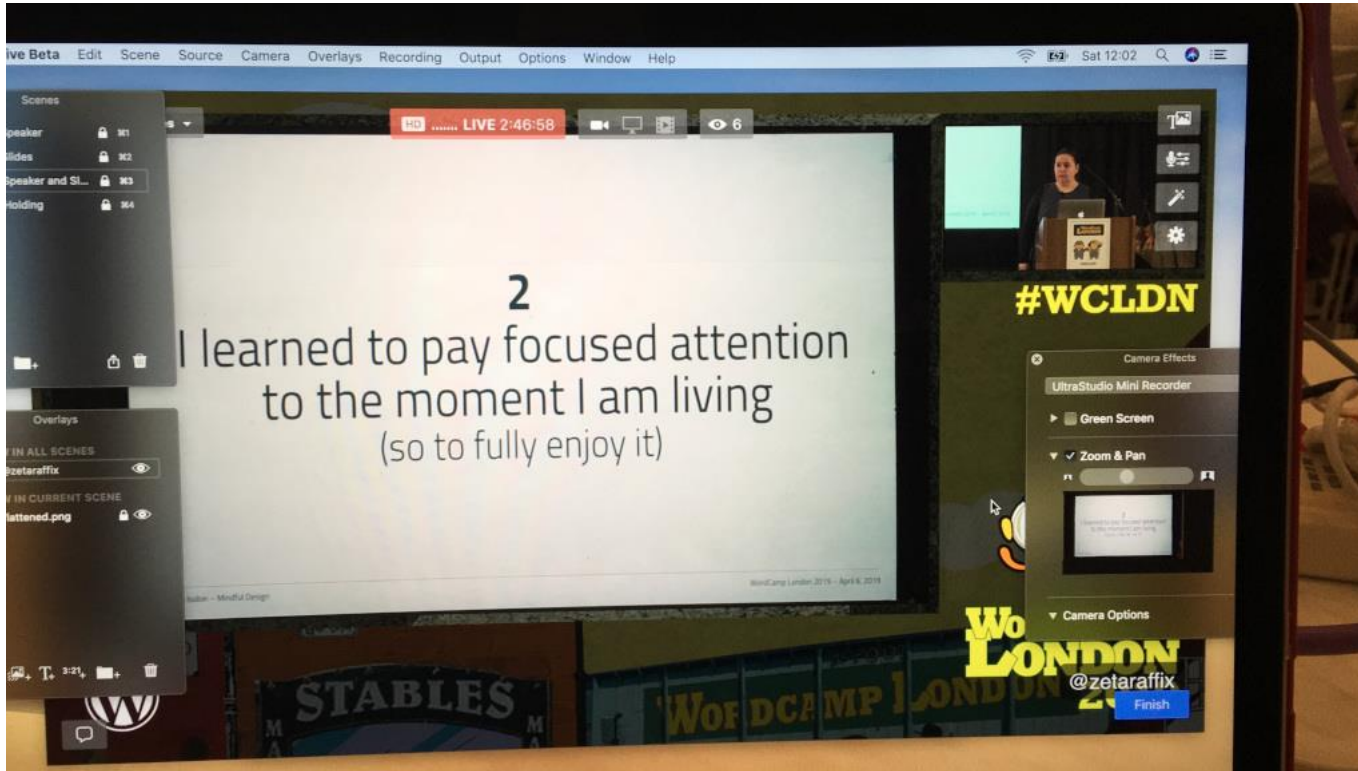

Migrating from a datacenter to Cloud

Advantages of Cloud for

1. Scaling and uptime
2. Increasing the development Curve
3. Security and DR
4. Cost Reduction

How we transformed a 30 person digital agency from our old CMS and onsite servers to WordPress and Cloud and how we now deliver websites that are super fast. e.g. Six Nation

An Introduction to live streaming

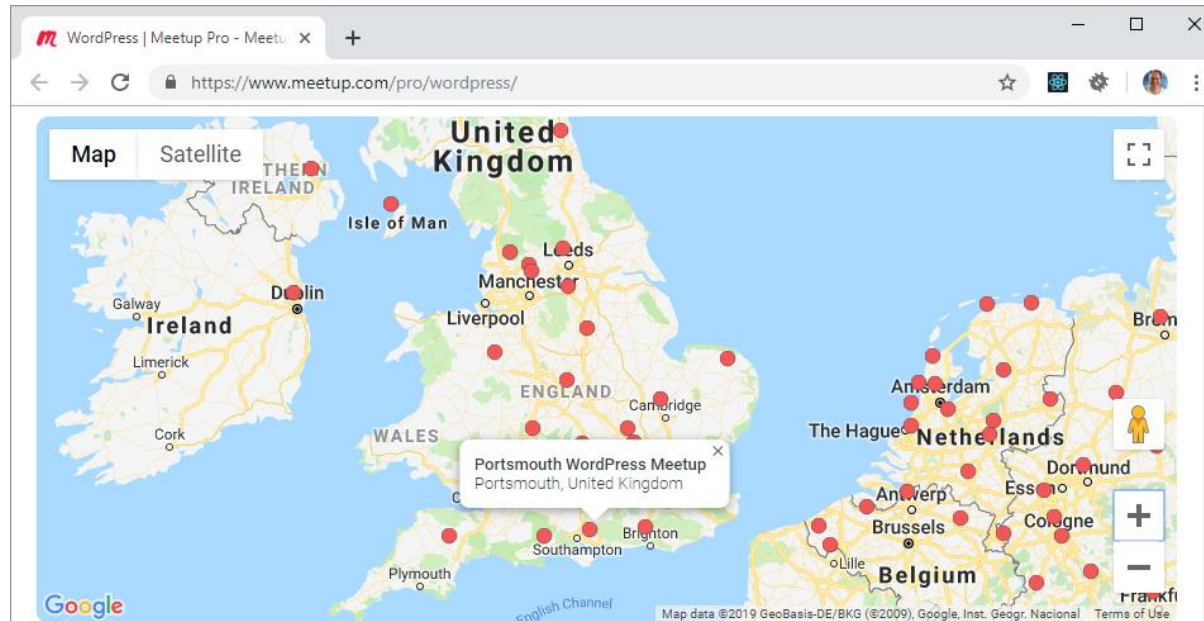

with Leo Mindel @WFCKeego

Leo was responsible for the Live streaming of each session in three separate streams at WordCamp London 2019.

In the future, once we've learnt how to do it, and got the necessary kit, some of our WordPress Portsmouth Meetups may also be live streamed.

123 meetup members
